

**Item # 3 T-Sushi**

In reviewing the application on the agenda, it still does not contain detailed plans, written and diagrams, of what the space will be and how it will be operated. There also is no documentation regarding the Fire Department recommendations for the building to have sprinklers added in regards to the request for added capacity.

District recommends denial of this application for expansion and increased capacity.

Should the applicant bring items to the meeting that would meet requirements of the application process, I would seek referral to the next ALRC meeting to allow for the District to review the documents and meet with the applicants.
