Applicant: Jay Lengfeld, Madison Police Department

Applicant's Comments: Demolish existing church to prepare site for future MPD Midtown Station, which will be constructed in 2015 or 2016 depending on funding. Would like to submit as soon as possible to allow demolition and grading/ seeding of site to be completed prior to winter.

Staff findings: A preservation file does not exist for this property; however, a c. 1920 Gothic church existed on this site before being altered beyond recognition in the 1970s. The windows of the original church building can be seen in the existing façade openings of the building on the corner.
