Dear Madison ALRC:

I am writing to request what is hopefully our last extension request to the Class B license request we were originally approved for in May of 2018. As I mentioned in November, construction began October 17th, and we may have difficulty opening for 2/28/19. This has become the case. However, we have made considerable progress, and I have a detailed schedule along with pictures here for your review. Overall, we expect the landlord work to be completed in the next 5 weeks, and our tenant improvement work to be completed in approximately the same amount of time. All of our equipment, furniture, etc has been purchased, the remaining items will be delivered and installed over the coming 3 weeks, and all of our permits and license applications have been reviewed and/or approved. All that remains is to satisfy the inspection requirements.

Updates:

- Landlord work: Chase has been constructed all the way up to the 4th floor roof.
- Inspections:
 - Plumbing inspections have been passed for entire space on 2/11/19
 - Electrical inspections passed for brewspace and cellar
 - Preliminary Building inspections passed for brewspace and chase
 - Wi DOR Alcohol & Tobacco Enforcement inspection performed on 2/11/19

Sincerely,

A handwritten signature in black ink, appearing to read 'Eric Peterson', with a large, sweeping flourish at the end.

Eric Peterson, Looking For Group Brewing Madison LLC
