Subject: 2550 University

Dear Mr. Martin,

I live in University Heights and just wanted to express opposition to the signage as currently proposed by the Mullins Group for its 2550 project. I do not want to see a semi-permanent "apartments available" sign atop the building. The commercial strip there is charming and modest -- and a healthy gateway to an historic district. I'd like the signage to be a coherent part of the strip and not a garish degradation of it.

Thanks for taking my thoughts into consideration.

Sincerely,

Juliet Page
