I live on E. Lakeside St. I have for 30+ years. I am appalled by the approval of the large, poorly-suited building proposed for the corner of Lakeside and S. Park St. The size and design are bizarre for that area, and the safety problems are considerable. It is an area that is old Madison, and it is changing rapidly. It is a busy intersection traffic and parking-wise. It has been increasing in traffic and accidents. It is a beautiful area with a close lakefront where residents on the Shore drives will not desire increased traffic that will result from this plan. Most importantly, the neighbors were not involved in the planning of this development. Traffic entering and leaving the parking garage on Lakeside St. is a huge safety problem. It would be better on S. Park St. The building design itself blocks much natural light, and views for neighbors.

Please pay some attention and consideration for neighbor opinions, and for those who regularly use that corner for commuting. Please approve things/plans that enhance the area, and keep it livable and safe. This is not it! It is a non-fitting, non-safe plan!

Respectfully submitted,

Charlene Sweeney
