Good Afternoon Plan Commissioners,

I wanted to provide the exact response from St. Ambrose regarding their plan to notify individuals of a threat.

“This will require coordination from all parties, but we plan to have a text group that includes designated people from each group (residents, Diocese, Blue Plate, St. Ambrose Academy). If any threat occurs in any area, a text will go out to the entire group describing what is happening and where. Law enforcement and any other necessary governmental authorities will also be contacted immediately. Of course, with any fire, the alarm will sound in the entire building.”

Thank you,

John W. Duncan
