

Feedback on TPPB Item 7 – 5/4/20 agenda:

This is a frequent travel route for folks in my district, and it's not just one of the most dangerous in the city, it's one of the most dangerous in Wisconsin. This is a crucial opportunity to leverage grant and state funding in order to make long-needed, long-overdue improvements that will save lives.

This intersection will only get busier and more dangerous. Knowing that in just 2014-2018 there were nearly 100 crashes, dozens of injuries and two deaths, to me, postponing this and endangering more people is just not acceptable.

The city has sought state support for improving this intersection for years. I hope this body will support this project and the critical safety improvements it brings.
