I do want you to know that my husband and I are very much opposed to any grocery store bigger than something the size of a Quick Trip. The neighborhood cannot support a big store. Too much traffic, big building overshadowing homes, semi trucks with too any fumes andtoomich noise for a residential neighborhood.

Why our alder person chose to skip town and this meeting is beyond me. She does not oppose this and probably cannot look people in the eye, because she knows how many people don,t want this.
