

# Bus Stop Changes

## University at Blackhawk

These stops on Route R, 28 and 38 were closed in prior years due to the crosswalk not having a median refuge causing pedestrians to cross 7 traffic lanes at once.

The crosswalk has been rebuilt with a pedestrian center island refuge, where pedestrians only need to cross 3 traffic lanes at a time. Crosswalk markings have also been improved.

Staff have received an alder request to reopen stops at this location. Stops are proposed to reopen on Sunday, May 8.
