A committee discussion on issues related to recycling in public places and at special events. The discussion will also cover issues related to recovering organics at special events. ..Body

As part of the City of Madison's commitment to zero waste, the Solid Waste Advisory Committee will be discussing the status of recycling in public places such as the State Street Mall, City parks and bus shelters, and street corners. The Committee will also be looking at the recycling at special events and at issues surrounding the recovery of organics from special events. The Committee will look at how we got to our current situation, barriers to improvement and try to develop a plan to increase recovery of materials and prepare to recover more organics as we move closer to an organics program.

Rodefeld Landfill Expansion

Dane County is expanding the Rodefeld Landfill in 2013. This expansion is critical to the City of Madison as we rely upon the facility to dispose of our solid waste. The expansion plans also dovetail with the City's plan to build an anaerobic digester for source separated organics.

As of January 2, 2013 the County's expansion plans on on schedule. The County has constructed and opened a transfer station at the Rodefeld site. The transfer station will be used to separate construction and demolition debris for recycling. The facility will also house a year round Clean Sweep facility for household hazardous waste.

The County's consultant has submitted the application and the application has been accepted by the Department of Natural Resources. The consultant is now working on the feasibility study which is the most important document for the expansion.

A committee with representatives form the affected communities, the City of Madison and the Town of Blooming Grove will begin to meet in late January to work out operating details. George Dreckmann, Larry Nelson, Paul Reilly, and James Voss will represent the City on the committee.

The Committee has met several times and resolved most of the issues related to siting. The County is now working with the Town of Cottage Grove on compensation for property owners adjacent tot he landfill.

The City will begin discussion with the CCounty on the two party user agreement on June 18, 2013.
