Dear Public Works,

Thank you for sending over the information regarding the proposed street project where are property, College Park is located. I spoke with Steve and he was able to give me some more details. I will not be able to attend tonight's meeting. However, I would like to voice my concern about the

\$40,000+ assessment. In my 20+years of doing business we have never had such a high assessment. I wonder if it might be better to hold off on this project due to material/labor costs being through the roof right now?

I understand that the piping is old and needs to be replaced but would like to see if there is anyway costs can be reduced?

I would also like to explore getting our own bids on any parts of the project where that is allowable. Also, are there any grants/programs, etc that we might be able to apply for to help with the potential cost?

Please keep me informed as you work your way through this process.

Sincerely,

Joanna
