It has come to my attention that a 6 story apartment building is being planned in the Medical Circle Area. Montessori Children's House, a school for young children, has been located on Medical Circle for over 30 years. I was the school's director at the time we purchased that property and relocated to that neighborhood.

I am concerned that a building of that size will significantly impact the neighborhood and in particular, the wellbeing of the children as they are outside on the playground. Construction issues will create noise, dust and other concerning health issues. A large apartment building with many tenants will create security issues for the school. Please consider a different location for a building of that size, or a smaller building that would create less traffic and noise and fewer safety issues for the children.

Sincerely,  
Pamela Bailey
