Subject: Opposed - Buckingham Lane expansion

Dear Members of the Plan Commission,

I'm writing regarding the proposed expansion of Buckingham Lane to Milwaukee Street.

From a traffic and engineering viewpoint I see why this appears desirable. The problem is, that this proposal divides a park in half. What? Drivers can find many alternative routes in the area, it is irresponsible to carve up a park to accommodate growth.

Green space inside of a neighborhood is an wonderful yet increasingly feature. Parks bring communities together. Yes with this plan a park will still be there, but it will be a significantly different experience. Imagine kids needing to cross a street in the middle of a park.

Please do not move forward with this plan until the Buckingham road expansion is removed.

Kind regards,

Jenn Jackson
