Subject: Grandview Town Center

Good morning Al, I just wish to take a moment to reiterate my support of the Town Center plan currently under consideration. I think Alder Cnare's letter sums up all the good planning and economic reasons for this project to proceed but I want to add, as a resident of Grandview, I really would like to see the town center amenities come to fruition. The ability to have a walkable grocery store and the ancillary development I believe this will encourage is a reason we moved from the Hilldale area in anticipation of a similar community while having a new, energy efficient home. Finally, I understand there have been some comments regarding Veridian employees, as I was clear to identify myself at the previous UDC meeting, testifying under some form of company pressure – this is emphatically not true.
Thank you, Roger
