RE: Approval to demolish two single-family residences at 3310 Agriculture Drive and 5125 Femrite Drive for the purpose of creating a landscaped area for Danisco, Inc.

Dear Mr. Bohn:

At its March 8, 2010 meeting, the Plan Commission, meeting in regular session, approved your request to demolish two single-family residences at 3310 Agriculture Drive and 5125 Femrite Drive for the purpose of creating a landscaped area for Danisco, Inc. In order to receive final approval of the demolition permit and for permits to be issued, the following conditions must be met:

Please contact Janet Dailey, City Engineering Division, at 261-9688 if you have questions regarding the following ten (10) items:

1. Any damage to the street pavement shall be restored in accordance with the City's Pavement Patching Criteria.
2. Revise plans to note the replacement of the inlet casting in the proposed driveway. The new casting shall be a Neenah R-3067-7000 or approved equal. Applicant shall obtain a permit excavate in the street right of way for the inlet casting installation.
3. Applicant agrees to work with city staff to convey the necessary right of way and sidewalk easements for grading and sloping along Agriculture Drive and Femrite Drive. A CSM is the recommended vehicle for these dedications and easements.
4. The applicant shall execute a waiver for hearing and notice for the sidewalk construction along Femrite Drive and Agriculture Drive. If the Applicant wishes to install the sidewalk they may do so under a Permit to Excavate in the Right of Way. Else the City shall plan the sidewalk installation at a later date and as an assessable project.
5. The applicant shall execute a waiver of their right to notice and hearings on the assessments for the installation of sidewalk along Agriculture Drive and Femrite Drive in accordance with Section 66.0703(7)(b) Wisconsin Statutes and Section 4.09 of the MGO. (MGO 16.23(9)(d)(6))
6. The applicant shall close all abandoned driveways by replacing the curb in front of the driveways and restoring the terrace with grass.
7. The applicant shall demonstrate compliance with Section 37.07 and 37.08 of the Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 7.5-tons per acre per year.

8. Prior to approval, this project shall comply with Chapter 37 of the Madison General Ordinances regarding stormwater management. Specifically, this development is required to complete an erosion control plan and complete weekly self-inspection of the erosion control practices and post these inspections to the City of Madison website – as required by Chapter 37 of the Madison General Ordinances.
9. The applicant shall submit, prior to plan sign-off, a digital CAD file (single file) to the Engineering Program Specialist in the Engineering Division (Lori Zenchenko). The digital CAD file shall be to scale and represent final construction. The single CAD file submittal can be either AutoCAD (dwg) Version 2001 or older, MicroStation (dgn) Version J or older, or Universal (dxf) format and contain only the following data, each on a separate layer name/level number: a) building footprints, b) internal walkway areas, c) internal site parking areas, d) other miscellaneous impervious areas (i.e. gravel, crushed stone, bituminous/asphalt, concrete, etc.), e) right-of-way lines (public and private), f) all underlying lot lines or parcel lines if unplatted, g) lot numbers or the words “unplatted”, h) lot/plat dimensions, i) street names, and all other levels (contours, elevations, etc) are not to be included with this file submittal.

NOTE: Email file transmissions preferred addressing@cityofmadison.com. Include the site address in the subject line of this transmittal. Any changes or additions to the location of the building, sidewalks, parking/pavement during construction will require a new CAD file.

10. Prior to approval of the application, the owner shall obtain a permit to plug each existing sanitary sewer lateral that serves a building that is proposed for demolition. For each lateral to be plugged the owner shall deposit \$1,000 with the City Engineer in two separate checks in the following amounts: (1). \$100 non-refundable deposit for the cost of inspection of the plugging by City staff; and (2). \$900 for the cost of City crews to perform the plugging. If the owner elects to complete the plugging of a lateral by private contractor and the plugging is inspected and approved by the City Engineer, the \$900 fee shall be refunded to the owner. This permit application is available on line at <http://www.cityofmadison.com/engineering/permits.cfm>.

Please contact John Leach, Traffic Engineering, at 267-8755 if you have any questions regarding the following four (4) items:

11. When the applicant submits final plans of one contiguous plan for approval, the applicant shall show the following: items in the terrace as existing (e.g., signs and street light poles), type of surfaces, existing property lines, addresses, showing all easements, all pavement markings, building placement, and stalls, adjacent driveway approaches to lots on either side, signage, percent of slope, vehicle routes, dimensions of radii, aisles, driveways, stalls including the two (2) feet overhang, and a scaled drawing at 1" = 20'.
12. The intersection shall be so designed so as not to violate the City's sight-triangle preservation requirement which states that on a corner lot no structure, screening, or embankment of any kind shall be erected, placed, maintained or grown between the heights of 30 inches and 10 feet above the curb level or its equivalent within the triangle space formed by the two intersecting street lines or their projections and a line joining points on such street lines located a minimum of 25 feet from the street intersection in order to provide adequate vehicular vision clearance.
13. The developer shall post a deposit and reimburse the City for all costs associated with any modifications to Traffic Signals, Street Lighting, Signing and Pavement Marking, and conduit and handholes, including labor, engineering and materials for both temporary and permanent installations.
14. Public signing and marking related to the development may be required by the City Traffic Engineer for which the developer shall be financially responsible.

Please contact Pat Anderson, Assistant Zoning Administrator, at 266-5978 if you have any questions regarding the following seven (7) items:

15. Provide a reuse/recycling plan, to be reviewed and approved by The City's Recycling Coordinator, Mr. George Dreckmann, prior to a demolition permit being issued.
16. Sec 28.12(12)(e) of the Madison Zoning Ordinance requires the submittal of documentation demonstrating compliance with the approved reuse and recycling plan. Please note, the owner must submit documentation of recycling and reuse within 60 days of completion of demolition.
17. Approval of the demolition permit will require the removal of all structures including the driveway landscaped and seeded to minimize erosion, remove asphalt driveway and apron and replace with curb and gutter. During demolition and prior to curb and gutter, installation of barriers shall be installed across the driveway to prevent the parking of vehicles.
18. Future development shall meet applicable building and zoning ordinances following applicable processes. The site shall be landscaped and seeded to minimize erosion.
19. Signage approvals are not granted by the Plan Commission. Signage must be reviewed for compliance with Chapter 31 of the Madison General Ordinances. This is in an Urban Design District. Signage must be approved by the Urban Design Commission and Zoning. Sign permits must be issued by the Zoning Section of the Department of Planning and Community and Economic Development prior to sign installations.
20. If outdoor lighting is provided, it must comply with City of Madison General Ordinances Section 10.085 outdoor lighting standards.
21. Provide a complete site plan. The submitted plans only show a portion of the property.

Please contact Scott Strassburg, Traffic Engineering, at 267-8755 if you have any questions related to compliance with Fire Code conformance issues related to this project.

The applicant is also required to satisfy the conditions of approval of the Urban Design Commission prior to the final staff approval of the project and the issuance of building permits. Please contact Al Martin, Urban Design Commission Secretary, at 267-8740 if you have any questions about those conditions.

No interior, exterior or structural demolition or wrecking activities or remodeling activities (including material reclamation activities by the applicant or a third party) shall commence nor any wrecking or building permits be issued until the applicant has met all of the conditions of approval stated in this letter.

Please now follow the procedures listed below for obtaining your demolition permit:

1. Please revise your plans per the above and submit nine (9) copies of a complete plan set to the Zoning Administrator for final review and comment. Also be sure to include any additional materials requested by these departments for their approval prior to sign off.
2. All wells located on this property shall be abandoned if no valid well operation permit has been obtained from the Madison Water Utility. City Engineering staff will review plans for compliance. Please note, this property is not in a Wellhead Protection District. The Madison Water Utility shall be notified to remove the water meter prior to demolition.

3. A reuse and recycling plan approved by the Recycling Coordinator is required by ordinance prior to the issuance of a wrecking permit. The reuse and recycling plan shall be submitted along with the resubmittal of site plans for forwarding to the Recycling Coordinator.
4. This letter shall be signed by the applicant to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting demolition and/or building permit approval.
5. This approval shall become null and void one year after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within six months of the issuance of said building permit. The Plan Commission shall retain jurisdiction over this matter for the purpose of resolving complaints against the approved demolition permit.

If you have any questions regarding obtaining your demolition or building permits, please contact the Zoning Administrator at 266-4551. If you have any questions or if I may be of any further assistance, please do not hesitate to contact my office at 267-1150.

Sincerely,

Kevin Firchow, AICP
Planner

cc: Janet Dailey, City Engineering Division
Pat Anderson, Asst. Zoning Administrator
John Leach, Traffic Engineering
Al Martin, UDC Secretary
Scott Strassburg, Fire Department

I hereby acknowledge that I understand and will comply with the above conditions of approval for this demolition permit.
