Hello,

I am writing to inquire more about the project at 3009 University Avenue and 3118 Harvey Street. I lease an office in the building directly to the west of the parking lot behind 3009 University Avenue. The Quarry Arts Building, where I lease space, is a Healing Arts building, housing many tenants who own businesses that require a quiet space. This includes massage therapy, psychotherapy, acupuncture, etc. Anything done in the lot my office faces is very loud and disruptive to my (our businesses here). Even when they plow the lot it is very noisy.

I have tried to sift through the online information. As I understand it, they simply plan to resurface the parking lot. Is this correct? Or is a building being constructed? I was not informed of this as a tenant of the building that is directly next to that lot, nor were all the other tenants and businesses in this building that will be directly affected.

Do you have more information on the noise levels, length of the project, etc?

Please advise what I should do next as a concerned party.

Thank you,  
In Health,

Laura Novak  
Massage and Wellness
