Subject: Security Plan & Follow Up - Kabul Restaurant
To: district2@cityofmadison.com

Dear Alderman Zellers,

First and foremost, I want to extend my appreciation for taking the time to speak with me regarding the entertainment license for Kabul Restaurant, and for reviewing the following information to move forward proactively.

A number of valid concerns have been brought to my attention, and I appreciate the constructive feedback you and Captain Carl Gloede have provided for me. After considering all sides of the issue, I've formulated a security plan, which I hope will assist the committee in understanding how this license can be utilized safely and will address all possible concerns in the event that they arise and how they can be preemptively prepared for by myself and that of my staff.

Below is an outline of the security plan which I have formulated. I appreciate any feedback you may have and will happily welcome further suggestions or additions as you see fit.

1. As a means of safety control, I will have 1 security officer per 50 persons, with this amount including both my staff and myself.
2. I will register and communicate with the Madison Police Department when these events are scheduled to occur.
3. The events will be by invitation only, as a means of regulating patron entrance and further controlling the clientele who are able to attend.
4. ID's will be thoroughly checked at the door, and both security, wait, and bar staff will be made aware of what to look for to assist in this screening process. In the event that an ID does not appear to be legitimate, it will be confiscated and provided to the Madison Police Department.
5. Security guards will remain on the premises 30 minutes beyond the end-time of the party to oversee patron security and assist in the safety of patrons as they organize for transportation home.
6. Kabul Restaurant's staff and security guards will be familiarized and well-versed with Ordinance 38.06. This will fully prepare staff in the event that a patron becomes unruly or violent, and will provide staff with the appropriate steps to be taken and will require police involvement.
7. Kabul Restaurant Staff and security will also review and practice withholding patrons who are already intoxicated from being served. Any patrons who are not in an appropriate state to drive, will be assisted in obtaining a taxi or other safe means of transportation away from the venue. In the event that a patron refuses assistance and attempts to drive, the Madison Police Department will be contacted and

provided with a description of the individual.

8. A sign will be placed at the entrance of the venue when these events are occurring as a means of regulating public entrance, and limiting capacity.

I feel it's necessary to reiterate that it is not the intention of Kabul Restaurant to hold these events on a regular/nightly basis. Please let me know if there is anything further you would like for me to add and I welcome your suggestions.

Regards,
Hamed Zafari
