Subject: PBMVC Agenda 2.27.13 Comments

Sabrina, unfortunately I cannot attend the PBMV meeting on 2/27/2013. Please forward my comments on a couple of items to the committee members.

Item E.3. Goodman Path Relocation Order. This is a great project to begin extending the city path system northeast toward Sun Prairie. Approve

Item E.6. Capital City Path Crossing Treatment Plan. This is a great long-overdue plan to improve biking (and walking) on the Cap City Trail from Blair to Waubesa. Thank you Mark Winter and staff! The plan still needs some improved detailing, but let's approve and move forward.

I would suggest that the Treatment Plan concept be approved and that staff consider the input from the SASY Neighborhood Council and continued input from others in formulating the final details. I would also request that an implementation plan/timetable be developed.

I assume there will be a future public process as plans are developed.

Thanks.

Mike Rewey
