Subject: concerns for Elderberry Neighborhood Plan

Dear Plan Commission Members,

We cannot attend today's hearing at 5:30 pm. But we would like to send this email to speak up our concerns about the plan.

We moved to Blackhawk Neighborhood in 2010 because of its rural environment and good schools. But Elderberry Neighborhood plan 2018 is going to significantly affect these two parts and we don't like the plan.

Multiple buildings with four to five stories mean more traffic, which is going to significantly impact our quiet neighborhood and safety. Our kids can play with our neighbors in the park happily for now. But more traffic will destroy their happiness.

Middleton has moved 5th grade from Elementary Schools to Middle Schools because of too many kids. The schools are already crowded. With more significant population in Elderberry Neighborhood plan 2018, the quality of schools will be a big concern.

Please reconsider Elderberry Neighborhood plan 2018.

Sincerely,

Chunxiang Xu & Liang Ying
