Dear Transportation Commission

I understand that there will be discussion about placing a four-way stop at the intersection of N. Baldwin Street and E. Mifflin Street at the meeting on 9/27.

I would like to register my support for this change. Cars move rapidly through the intersection on Baldwin and with Mifflin being a heavily used and designated bicycle route, there are many encounters where bicycles encounter fast cars. Stopping the cars on Baldwin would make this a safer intersection. I cycle through this intersection almost daily and have witnessed close calls with bicycles and pedestrians trying to cross Baldwin but encountering dangerously fast cars.

I urge the Transportation Commission to implement this Safe Streets initiative.

Thanks for your consideration.

Sincerely,
Mike Fiene
