

Facebook online poll taken NOV 11, 2012:

What type of Southwest Path user are you?
Let's do a fun and quick survey:

Reply with your user categories and your opinion of "Yes lights" or "No Lights" or "Not Sure" if you are a user of the Southwest Path. Results will be given at the Joint Bike/Ped/Motor-Public Works committee hearing on Nov 28th at 7:00 in the City-County building. This will be the last public hearing before the Common Council vote on Dec 11. Please attend and sign in at both!

"Category", means a use that you have personally engaged in at least twice in the last year on the Southwest Path section between Breese Terrace and the Beltline. Put an asterisk next to any categories that you regularly engage in after dark.

"lights" means the LED streetlights of the current proposal.

Please also include "seen them" if you have actually viewed the test lights (on the path, after dark) with your own eyes.

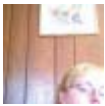

Example Response:

3,4,5*,13*, no lights, seen them.

In order of increasing speed, the user categories include:

- 1) stationary socializing, birdwatching, trail/prairie work
- 2) pedestrian with dog
- 3) pedestrian recreational
- 4) pedestrian with stroller
- 5) pedestrian commuting
- 6) wheelchair user
- 7) wheelchair user with dog
- 8) runner recreational
- 9) runner commuting
- 10) skateboarder
- 11) in-line skater
- 12) cyclist with dog
- 13) cyclist commuting
- 14) cyclist recreational
- 15) cyclist cardio training

The mix of different types of users is part of the unique charm of this remarkable path. Incidentally, only bicycles are counted by Traffic Engineering's "usage Counter".

• [Julia Ziemer](#) 2,3,5,8,13,14; NO lights, seen them
[November 11 at 9:05am](#) ·

• [Michele Brogunier](#) 1-2-5-8-13-14-no lights, seen them.
