

Please Support The River With Me!

Dear Alder,

I wish to express my enthusiastic support of the proposed 2023 budget amendment, sponsored by Alders Myadze, Tishler, and Carter, allocating \$1 million to the construction of a larger, more efficient facility for The River Food Pantry on Madison's north side. A well-established organization with a proven track-record, The River is a key support for thousands of residents throughout the greater Madison area struggling with food insecurity. Moreover, the majority of the 11,000+ people who use the pantry's services reside in areas that the City of Madison itself has identified as Food Access Focus Areas (i.e., "food deserts").

By owning their facility, The River will be able to 1) ensure the long-term stability of the community support they provide and 2) substantially improve the overall capacity and efficiency of their operations. The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

I wish to express my enthusiastic support of the proposed 2023 budget amendment, sponsored by Alders Myadze, Tishler, and Carter, allocating \$1 million to the construction of a larger, more efficient facility for The River Food Pantry on Madison's north side. A well-established organization with a proven track-record, The River is a key support for thousands of residents throughout the greater Madison area struggling with food insecurity. Moreover, the majority of the 11,000+ people who use the pantry's services reside in areas that the City of Madison itself has identified as Food Access Focus Areas (i.e., "food deserts").

By owning their facility, The River will be able to 1) ensure the long-term stability of the community support they provide and 2) substantially improve the overall capacity and efficiency of their operations. The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

A well-established organization with a proven track-record, The River is a key support for thousands of residents throughout the greater Madison area struggling with food insecurity. Moreover, the majority of the 11,000+ people who use the pantry's services reside in areas that the City of Madison itself has identified as Food Access Focus Areas (i.e., "food deserts").

By owning their facility, The River will be able to 1) ensure the long-term stability of the community support they provide and 2) substantially improve the overall capacity and efficiency of their operations. The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

John T. Gaska

The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

Please Support The River With Me!

Dear Alder,

I wish to express my enthusiastic support of the proposed 2023 budget amendment, sponsored by Alders Myadze, Tishler, and Carter, allocating \$1 million to the construction of a larger, more efficient facility for The River Food Pantry on Madison's north side. A well-established organization with a proven track-record, The River is a key support for thousands of residents throughout the greater Madison area struggling with food insecurity. Moreover, the majority of the 11,000+ people who use the pantry's services reside in areas that the City of Madison itself has identified as Food Access Focus Areas (i.e., "food deserts").

By owning their facility, The River will be able to 1) ensure the long-term stability of the community support they provide and 2) substantially improve the overall capacity and efficiency of their operations. The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

Please Support The River With Me!

Dear Alder,

I wish to express my enthusiastic support of the proposed 2023 budget amendment, sponsored by Alders Myadze, Tishler, and Carter, allocating \$1 million to the construction of a larger, more efficient facility for The River Food Pantry on Madison's north side. A well-established organization with a proven track-record, The River is a key support for thousands of residents throughout the greater Madison area struggling with food insecurity. Moreover, the majority of the 11,000+ people who use the pantry's services reside in areas that the City of Madison itself has identified as Food Access Focus Areas (i.e., "food deserts").

By owning their facility, The River will be able to 1) ensure the long-term stability of the community support they provide and 2) substantially improve the overall capacity and efficiency of their operations. The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

Please Support The River With Me!

Dear Alder,

I wish to express my enthusiastic support of the proposed 2023 budget amendment, sponsored by Alders Myadze, Tishler, and Carter, allocating \$1 million to the construction of a larger, more efficient facility for The River Food Pantry on Madison's north side. A well-established organization with a proven track-record, The River is a key support for thousands of residents throughout the greater Madison area struggling with food insecurity. Moreover, the majority of the 11,000+ people who use the pantry's services reside in areas that the City of Madison itself has identified as Food Access Focus Areas (i.e., "food deserts").

By owning their facility, The River will be able to 1) ensure the long-term stability of the community support they provide and 2) substantially improve the overall capacity and efficiency of their operations. The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

Mary Cateell

I wish to express my enthusiastic support of the proposed 2023 budget amendment, sponsored by Alders Myadze, Tishler, and Carter, allocating \$1 million to the construction of a larger, more efficient facility for The River Food Pantry on Madison's north side. A well-established organization with a proven track-record, The River is a key support for thousands of residents throughout the greater Madison area struggling with food insecurity. Moreover, the majority of the 11,000+ people who use the pantry's services reside in areas that the City of Madison itself has identified as Food Access Focus Areas (i.e., "food deserts").

By owning their facility, The River will be able to 1) ensure the long-term stability of the community support they provide and 2) substantially improve the overall capacity and efficiency of their operations. The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

Please Support The River With Me!

Dear Alder,

I wish to express my enthusiastic support of the proposed 2023 budget amendment, sponsored by Alders Myadze, Tishler, and Carter, allocating \$1 million to the construction of a larger, more efficient facility for The River Food Pantry on Madison's north side. A well-established organization with a proven track-record, The River is a key support for thousands of residents throughout the greater Madison area struggling with food insecurity. Moreover, the majority of the 11,000+ people who use the pantry's services reside in areas that the City of Madison itself has identified as Food Access Focus Areas (i.e., "food deserts").

By owning their facility, The River will be able to 1) ensure the long-term stability of the community support they provide and 2) substantially improve the overall capacity and efficiency of their operations. The proposed facility would more than double the pantry's operational space and provide the sustainable infrastructure needed to support The River's growing programs well into the future. Thus, investing in this project is not just about avoiding the loss of current services—it is about expanding these benefits to even more Madisonians.

I urge you to support this funding amendment, which will mean so much to me and my family.

Sincerely,

Shota Gibson
