**Subject:** monroe street development

dear mayor soglin, sue ellingson and tim parks,  
i am writing this to request that you encourage more development of monroe st. (i live in this area) and for that matter  
please encourage infill development in general. my opinion is that urban sprawl makes a city less convenient  
and less pleasant for residents. i commend all of you for the infill developments on east washington, park street,  
university and downtown. there has been some small commercial projects recently on monroe...hopefully you will  
continue to approve more of them.

best,  
jason schulman
