I have my young grandchildren

have several times a week they have

a hard time ~~with~~ making why they

can't play ~~with~~ the coffee smell.

occasionally ~~the~~ on option for

me to move and I feel I should have

have to because of this situation.

I would appreciate if you could

help me by having the owner of

Baniquero coffee shop comply to legal

regulations as other area business

places have to do.

I firmly believe that a potential

health risk should have priority

attention for the residents of this area

I am writing in regard to

Baniquero coffee shop at 961 S. Park St.

I was pleased about having a coffee

shop in our area, but what I didn't

know is that there was going to be

a foul toxic smell and that they

would be relocating for 4 locations!

I have lived here on S. Brooks St

for 41 years and I love this area.

I am retired and I am sure pretty

much I sleep a week

I the smell is a problem that really

put a negative impact on my

life style. I feel sick from the smell

so when I'm in my garden and yard

I have to go inside. Sometimes I

smell it in the house
