Madison Gas and Electric (MGE) will be installing a new underground electrical line along Portage Road. This new line will be installed north of Hayes Rd on the west side of Portage Rd. This work will begin in late October 2010 and will be completed in late November 2010.

A public hearing, for this project, will be held before the City of Madison Board of Public Works at 5:30 p.m. on Wednesday, October 20, 2010 at the Madison Water Utility Building, 119 E Olin Av.

The new electrical lines will be installed by MGE and KS Energy Services in accordance with the City's standards and in compliance with a Permit to Excavate in Public Right-of-way. This line will be installed using a directional drill to minimize disruption to the site.

All terrace restoration will be done as required by the Permit to Excavate in Right-of-way. If you have any questions or concerns about this project, please call or e-mail Christopher Erickson at (608) 252-5670 or cerickson@mge.com. You may also contact LeAnne Hannan with the City of Madison Engineering Division at 266-4057 for any additional questions.
