

OPPOSITION TO PROPOSED CONTRAFLOW BIKE LANE ON WEST MAIN STREET

We the undersigned business and/or property owners in the 100 Block of West Main Street, Madison, Wisconsin, or other interested persons, hereby express our disapproval of any contraflow bike lane as being unnecessary, hazardous, accident prone with added liability to innocent vehicle drivers backing out of legal parking stalls on West Main into bicycles driving the wrong way on West Main Street. This is not business-friendly. The City should not attempt to legalize a bike path that is unconventional and will inconvenience innocent vehicle drivers to benefit the small number of bikes in comparison to the many vehicles that come and go day and night. At night, the small lights on bikes are virtually invisible and especially hazardous. Please do not approve a Contraflow Bike Lane.
