<b>Re:</b>	<b>Update on Security Cameras at the Transfer Points</b>

Best and Final Offers were received on Thursday, March 30. Proposals have been evaluated, and a resolution to award the contract to Boldtronics, Inc. will be introduced at the April 18 Common Council meeting. It will come to the TPC for action on May 9.

Due to incidents over the past two months at the West Transfer Point, an addendum was issued to the original RFP for surveillance at the South Transfer Point. In their final offer, vendors provided quotes on cameras at the West Transfer Point as an option. The proposals came in under budget, and staff will be recommending security camera installation at both the South Transfer Point and the West Transfer Point.
