To Whom it May Concern,

I am a resident in the Regent Street area and am extremely pleased with your most recent revised proposal for the reconstruction/redesign. I understand that you have a lot of competing priorities and can only do so much to please all parties, so thank you for listening to feedback and proposing the best potential solution. Maximizing parking to help sustain our businesses is the right move as there's won't be anyone to patronize if the customer base is pushed away due to a lack of parking options. As someone who walks to the Regent Street business area, I am also relieved to hear that pedestrian safety remains a high priority. This will also benefit those heading to the area via bike as they will have access from the SW Commuter path and safe entries to Regent Street from that corridor.

Thank you again, and please let me know if you would like any additional feedback!

Sincerely,
Jim Riffel
