Applicable Standards

SOI

9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work will be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

Staff Recommendation

Staff believes that the standards for granting a Certificate of Appropriateness are met and recommends the Landmarks Commission approve the project with the following conditions:

1. Any exterior lighting will need a Certificate of Appropriateness.
