

Petition to the City Council, Madison Wisconsin.

Today our guests can park on the street. Not so next year. Lance McGrath has proposed a building with 40 apts. and a parking garage for 49 cars at Bassett and Wilson Streets. We are concerned that this project will cause undue congestion in our neighborhood. We urge the council to follow those recommendations set forward by Cities Without Cars which will help reduce congestion in our neighborhood by using car share, and vetting new residents. Questions: 256-4301 or contact your Alderperson to express your concerns.
