Summary

Scott Wareing, registering in support and available to answer questions

Bailey provided information on the property and made note of the new motion options for the Landmarks Commission's advisory recommendations on historic value.

Action

A motion was made by Morrison, seconded by Arnesen, to recommend a finding of (c) no known historic value; and that the site has archaeological potential as a Native American camp site. There are no previously identified human burials on this site, but as the location of long-term human habitation, the property owner should proceed with caution and halt any ground-disturbing activity if there is an inadvertent discovery of human remains. The motion passed by voice vote/other.
