

# Changes to Routes 55 and 75

## For implementation in December 2020

Due to a large number of staff still working from home, Epic has asked to temporarily reduce trips to their campus.

Staff have worked with Epic staff to identify trips that could be temporarily suspended with minimal impact to riders and other existing Metro service.

Trips proposed to be suspended are marked in red in the following Ride Guide page.

Staff feel remaining trips still maintain good frequency and don't leave a large gap in service.

Proposed trip reductions would reduce Verona/Epic's service by 3.7 hours/day, or 950.9 hours per year. This would bring the annual total down from 5,929 hours to 4,978 hours.

This would reduce Verona's 2021 liability by approximately \$125,000.
