Zoning Map Corrections

The following zoning map amendment ordinances (Items 4-12) have been requested by staff, property owners, or district alders to address mapping errors that have come to light since the adoption of the new zoning map on October 16, 2012. The intent of these map amendment ordinances is to provide the closest and most appropriate zoning districts to allow the existing uses of these properties to continue in a manner similar to how they have existed historically. The proposed zoning districts may not resolve bulk or design non-conformities that exist with some of these properties.

No development proposals coincide with these zoning map corrections, and any future development proposals for any of these properties may require an applicant or property owner to file an application and plans with the Department of Planning and Community and Economic Development for review and approval.

****Staff recommends that Items 4-12 be approved on the consent agenda.****
