NOTES:														
Numbers indicate morning / afternoon counts														
Gray boxes indicate counts where both the morning and afternoon counts were below 15, the point at which the School Crossing Protection Criteria would recommend discontinuance of an Adult School Crossing Guard assignment.														
<p>These data represent counts made by the Crossing Guards assigned to these locations. These data provide an indication of level of use for each location but are not intended to be used to determine whether or not to continue particular Crossing Guard assignments. Field studies conducted by Traffic Engineering are required before a recommendation to discontinue a Crossing Guard assignment can be made.</p>
