Mounting brackets
14' apart. Electrical
supply concealed within.

TWO-SIDED BLADE SIGN -
To be mounted to the buildings' structure;
not to surface finishes. Internal structure of
the sign to be designed by the signmaker to
withstand normal loads and severe wind loads.
The main body of the sign is to be clad in
aluminum; front and back. The edges are to
be black acrylic.

LETTERS - 24" (19" Opt B) tall backs of letters
to be cut in brushed aluminum plate spaced
with a gap to the body of the sign. 20" (16"
Opt B) fronts of letters are to be spaced with a
gap from the backs and internally illuminated
with LEDs to create a halo effect. Sides formed
in aluminum to create 3-D letters 4" deep.
Fronts of letters to be burgundy red acrylic
internally illuminated by LEDs.

FONT - Arno Pro, Bold.
