Description of Requested Variance: We are requesting a variance to be able to address issues
related to the elevated deck off the back of our house (which faces Lake Monona). The current deck
is both too small to be functional and in need of repairs. Zoning rule changes subsequent to the
house being built do not allow for permits to be granted. We are seeking a variance that would allow
us to construct a new deck that is further back from the lake but is more functional in that it would
facilate us having both a grill and a table and chairs on the deck.

Standards for Variance

The Zoning Board of Appeals shall not grant a variance unless it finds that the applicant has shown the following standards are met:

1. There are conditions unique to the property of the applicant that do not apply generally to other properties in the district.

Our property is unique in that since the construction of the house the ordinances have changed making our current deck non-conforming. It is on Lake Monona and is subject to the calculation of setback that disadvantages us given the curve of the shoreline.

2. The variance is not contrary to the spirit, purpose, and intent of the regulations in the zoning district and is not contrary to the public interest.

The variance request is consistent with the current regulations as our proposed deck would not interfere with our neighbors site lines, pulls the front edge of the deck back further from the lake, would improve the aesthetics of the home, and would make the deck functional in that it could support both a grill and a table/chairs.

3. For an area (setbacks, etc) variance, compliance with the strict letter of the ordinance would unreasonably prevent use of the property for a permitted purpose or would render compliance with the ordinance unnecessarily burdensome.

Compliance with the current ordinance would not allow us to address its functional limitations or obtain permits to maintain the current deck. Its current size does not support normal use and detracts from the value of the house.

4. The alleged difficulty or hardship is created by the terms of the ordinance rather than by a person who has a present interest in the property.

Yes - the terms of the ordinance do not allow the current deck to exist at all. The curve of the shoreline combined combined with the setback rules do not technically allow any deck to exist despite the fact that it does not create any sight line issues for our neighbors.

5. The proposed variance shall not create substantial detriment to adjacent property.

It will not. The proposed variance does not create any sight line issues for neighbors and actually pulls the front edge of the deck back from the lake by roughly 1 foot.

6. The proposed variance shall be compatible with the character of the immediate neighborhood.

Yes - our new deck will better match the aesthetics of the neighborhood by stretching across the back of the house, and will allow the deck to have the same functionality as other houses in the neighborhood.

Application Requirements

Please provide the following information: Incomplete applications could result in referral or denial by the Zoning Board of Appeals. (Maximum size for all drawings is 11" x 17".)

☒	Pre-application meeting with staff: Prior to submittal of this application, the applicant has met to discuss the proposed project and submittal material with the Zoning Administrator.
☒	Site plan , drawn to scale. A registered survey is recommended, but not required. Show the following: ☐ Lot lines ☐ Existing and proposed structures, with dimensions and setback distances to all property lines ☐ Approximate location of structures on neighboring properties adjacent to variance ☐ Major landscape elements, fencing, retaining walls or other relevant site features ☐ Scale (1" = 20' or 1' = 30' preferred) ☐ North arrow
☒	Elevations from all relevant directions showing existing and proposed views, with notation showing the existing structure and proposed addition(s).
☐	Interior floor plan of existing and proposed structure , when relevant to the variance request and required by Zoning Staff (Most additions and expansions will require floor plans).
☐	Front yard variance requests only. Show the building location (front setback) of adjacent properties on each side of the subject property to determine front setback average.
☒	Lakefront setback variance requests only. Provide a survey prepared by a registered land surveyor showing existing setbacks of buildings on adjacent lots, per MGO 28.138.
☐	Variance requests specifically involving slope, grade, or trees. Approximate location and amount of slope, direction of drainage, location, species and size of trees.
☐	Digital copies of all plans and drawings should be emailed to: zoning@cityofmadison.com
☒	CHECK HERE. I understand that in order to process my variance application, City Staff will need access to my property so that they can take photographs and conduct a pre-hearing inspection of the property. I therefore give City Staff my permission to enter my property for the purpose of conducting a pre-hearing inspection and taking photographs.
☒	CHECK HERE. I acknowledge any statements implied as fact require supporting evidence.
☒	CHECK HERE. I have been given a copy of and have reviewed the standards that the Zoning Board of Appeals will use when reviewing applications for variances.
