Dear Members of the Transportation Commission,

I am writing to express my strong support for implementing a permanent lane reduction on West Washington at the Southwest Commuter Path crossing.

I listened in on today's Transportation Commission meeting, which included an agenda item to discuss options for the West Washington & Southwest Commuter Path crossing. I think the safety of path users should be the top priority for any updates to this intersection. And I think the most effective way to keep path users safe is to reduce the number of lanes that they need to cross.

I hope you keep a lane reduction as a top option as you continue to explore potential updates to this crossing.

Thank you,

Michael Joseph
