

June 2016: Utility Box Pilot Project Proposal

6-21-16 draft

Cost: \$1200 per box wrap, includes installation and artist honorarium

Rough size estimates:

Fountain Plumbing Boxes: Total: 8176 sq inches = 57 sq feet

Traffic Control Box: Total: 5984 sq inches = 42 sq feet

Pilot Program Requirements:

- Artist(s) will receive a licensing fee for image use. No decommissioning of artwork is required if images are removed.
- During art wrap installation and upon completion, all vents must remain open, all locks and other access ports must remain accessible for regular required use, including any venting and maintenance of the box.
- City of Madison Engineering and Traffic Engineering retain the right for full use of utility box, including, but not limited to the ability to alter or remove the box.
- Art wraps may be removed at anytime for any reason.
- Only non-painted stainless steel boxes are eligible for this program.

Fountain Plumbing Boxes: East and West Washington Avenue

Traffic Utility Light Control Boxes:
On the Corner of King Street and the Square

On the Corner of N Hamilton Street and the Square
