Please ensure that there is a sufficient playground area for larger kids. In addition, there is no need to cut down ANY trees. We need all the trees that currently exist on this property. Thanks you.

Well that's a start but much more careful planning needs be done! Good to hear about the tot lot and the confirmation that there will also be a full sized playground also - not like the measly playground at the complex right off Hartmeyer. The developer has to fulfill that commitment they have made!!

But removing trees - that's insane. In today's age smart planning would use these trees.

I've said it too many times. Urban Planning and Design needs to slow down!!

Thank you for your attention to these crucial matters.
