1	Interaction with and respect for the neighborhood. The location is immediately next to a residential area.	2/22/2015 6:31 PM
2	I hope that in the design there is room for appropriate landscaping (more trees) so that the neighborhood benefits from having all the city trees. That whole zone around the site is pretty barren.	2/5/2015 11:16 AM

1	Aesthetic design fitting in with the surrounding buildings	2/20/2015 1:21 PM
2	Best use for the land. Is there a location at or close to Olin Ave for the facility.	2/12/2015 3:02 PM
3	The blank wall facing Main Street is an issue. I think at least an entrance and some semblance of ground floor windows would help. I also believe the parking lot entrance should be from Paterson, not from Main Street. There is a more pedestrian friendly/ street friendly design that could be produced that will help this facility blend into future commercial/ office/ residential development that is certain to come to the area in the near future.	2/8/2015 2:07 PM

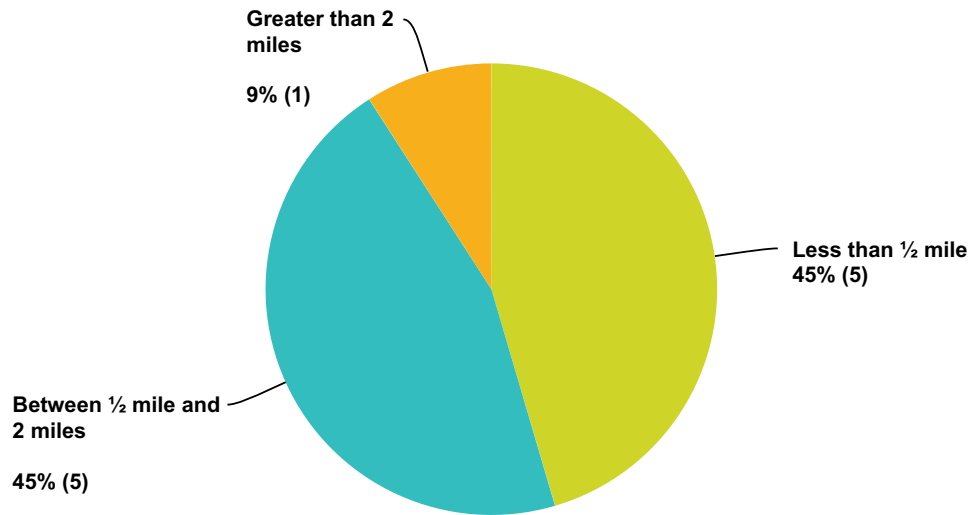

Q9 Do you have any additional comments about the Paterson Ops Center project?

1	A couple of picnic tables in the terrace areas would indicate that there are actual humans working in the buildings. Pipe storage area and the sand/gravel pit areas need to have visual screening! The appearance of the pipe storage area is an insult.....none of the planners associated with this project would accept this a block from their house! Show some respect for your neighbors....we're paying your salaries.	2/22/2015 6:31 PM
2	I realize that there is an issue of convenience keeping this facility on the isthmus. But I truly believe that 10 years from now, most people will wonder why the city kept this facility in an area that has become populated with commercial and residential development. Particularly, people will hate that a prime corner of Main Street is home to a blank wall and a parking lot.	2/8/2015 2:07 PM
