Cambridge®

The Trusted Solution
for a Beautiful Roof.

BEAUTY You Can See. QUALITY You Can Feel.

NOW THAT IT'S TIME TO REPLACE YOUR ROOF, WHY TAKE ANYTHING

FOR GRANTED? We never do. Since 1951, IKO has been protecting American homes and families just like yours against the elements.

Whether it's elegant and sophisticated or laid-back and casual, or somewhere in-between, IKO Cambridge® Architectural shingles come in a wide range of stunning color blends to express your personality, reflect your taste and potentially boost your home's resale value too.

Their modern, laminated two-piece design provides the depth, dimension and texture of genuine wood shakes for an upscale appearance without the upscale price tag. Now unleash your exterior designer and dress up your home with an exciting new look, for less than you might expect.

PERFORMANCE You Can Trust.

- 1 LAMINATE ADHESIVE.** Five strips of our tough, construction-grade adhesive are used to laminate the shim to the tooth.
- 2 BUILT-IN ALGAE RESISTANCE.** Special colorfast granules embedded in the shingles' surface help inhibit the growth of blue-green algae that can cause unattractive black stains, streaks and discoloration.
- 3 CORE STRENGTH.** Our resilient fiberglass mat is coated top and bottom with weathering asphalt, then surfaced with colored granules. It's heavy-duty for exceptional durability and structural integrity.
- 4 EXCEPTIONAL BONDING.** IKO's FastLock® sealant on the shingles' bottom edge gets extra-tacky when activated by the sun's heat. This creates a strong bond to help ensure maximum protection against wind uplift, blow-off and water penetration.

THE IKO ADVANTAGE

Limited Warranty ¹	Limited Lifetime ³
Iron Clad Protection ¹	10 Years (U.S. only)
Limited Wind Warranty ¹	110 mph (177 km/h)
Limited High-Wind Warranty Upgrade ^{1,2}	130 mph (210 km/h)

Blue-Green Algae Resistant¹ Yes

PRODUCT SPECIFICATIONS⁴

Length	40 7/8 in (1038 mm)
Width	13 3/4 in (349 mm)
Exposure	5 7/8 in (149 mm)
Coverage per Bundle	33 1/3 ft ² (3.1 m ²) (3 bundles = 1 full square = 100 sq ft coverage)

STANDARDS⁵

ASTM D3462, ASTM D3018, ASTM D3161 – Class F,
ASTM D7158 – Class H, ASTM E108/UL 790 – Class A.

IMPORTANT! To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final color selection as the shingle swatches and photography shown online, in our brochures and in our **ROOFViewer®** tool may not accurately reflect shingle color and do not fully represent the entire color blend range, nor the impact of sunlight.

Note: Product and color availability may vary by region. Products with Miami Dade NOA, FBC product approval and Texas Department of Insurance listings are available. Please contact IKO for details. ¹See Limited Warranty at IKO.com for complete terms, conditions, restrictions and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements. ²High-wind application is required. ³"Lifetime" means the period of time commencing on the date of the completion of the installation of the shingles on the building, and continuing so long as the owner owns the building on which the shingles were installed. ⁴All values shown are approximate. ⁵Products are developed with reference to these standards.

Shingles are your home's first line of defense, but they protect, perform and look their best installed with the **IKO Proformax Integrated Roofing Accessories** shown below.

DECK PROTECTION	SYNTHETIC UNDERLAYMENT	ROOF STARTERS	CAPPING SHINGLES
-----------------	------------------------	---------------	------------------

1. IKO GoldSeam™ Roof Sealing Tape

1a. Apply where the fascia and eaves meet.
1b. Apply over seams when sealing the deck using synthetic underlayment.

StormShield®

1c. Apply under shingled roofs to help prevent water infiltration due to ice dams and wind-driven rain.

2. Stormtite™

It's IKO's economical synthetic underlayment choice. Stronger than conventional felts, Stormtite installs easily, even in cool weather, due to its light weight. Stormtite is the perfect combination of strength and flexibility.

3. Leading Edge Plus™ or EdgeSeal™

Apply starter shingles with IKO's own high-strength thermally activated sealant or use the double-sided starter roll at eaves and rakes to help ensure wind resistance at that critical first course of shingles.

4. Hip & Ridge 12™

These capping shingles are available in colors that pair with every Cambridge color. Installation is easy, just separate the tapered pieces along the perforation, bend and nail in place. No waste.

**Cambridge®**

To find out more about Cambridge® Architectural shingles or additional IKO products, please talk to an IKO sales representative or a professional roofing contractor, or contact IKO directly.

Pella® Entry Doors:

Fiberglass and Steel

Fiberglass

High performance. Low maintenance.

- Grained fiberglass has the warm, rich look of wood.
- Dent-resistant and won't rust or corrode.
- Choose from Mahogany-grain, Oak-grain, Fir-grain and Smooth fiberglass.

Single and Double Doors₁

Single Door with Sidelights₁

Single Door with Sidelights and Transom₁

Double Door with Sidelights₁

Steel

Naturally strong and durable.

- Steel panels provide a quality appearance to any home that's easy to maintain.
- Smooth surface creates even color when painted.
- Steel provides extra durability.

Pella® entry doors are backed by one of the best warranties in the business.*

Pella entry door fiberglass systems with composite exterior frames are backed by the Pella Limited Lifetime Warranty.*

The Pella 20/10 Limited Warranty is the standard warranty for all steel and wood entry doors from Pella.*

*See written limited warranties for complete details, including exceptions and limitations, at pella.com/warranty or contact Pella Customer Service.

(1) Configuration only available with fiberglass.
