

1. Remove lots to square up Acer Park boundary and work with staff to relocate lots within the plat.
2. Relocate 2 lots adjacent to southern park to create additional park/open space. Remove street connection. Potential lot relocation sites labeled 2a.
3. Extend path west to property line.
4. Mix housing types, too many two units clustered in one location.
5. Work with staff to square up park edge/lot line.
6. Coordinate street location with adjacent property owner.
