ACTION TITLE: Metro Transit – Metro Transit Bus Stop Changes at W. Washington Ave. and the Southwest Commuter Path

PRESENTER: Mike Cechvala

CONTACT FOR QUESTIONS: Mike Cechvala

ACTION SUMMARY: Approve a set of bus stop changes related to the Southwest Path.

BACKGROUND: Improvements to West Washington Ave. and the Southwest Path were approved by the Transportation Commission on March 5, 2025. (Legistar 87414) As part of these improvements, Metro needs to combine two Route E bus stop pairs.

DESCRIPTION: Stops at Regent and Mariposa and West Washington and Southwest Path would be combined into one pair of stops at West Washington and Regent.

This will support the planned improvements by reducing the number of conflicts at the Southwest Path and create a set of bus stops with better spacing and connections to destinations in the area.

Route 75 will also serve the West Washington/Regent stops.

These proposed changes were posted on Metro's website on April 13 and at these stops on April 15.

EQUITY GOAL IMPACTS: Some people in between stops may have a longer walk. Though, a number of people will also have shorter walks and will be moved to safer signalized crossings.
