Subject: Options Outcomes

Hello Jim, Mary and Hugh,

One question that came up about Options was its long term success rate. Here is some information:

In that last two years, Options has served a total of 157 Madison youth. 49 of those Options participants have earned their HS diploma or GED/HSED and 51 are still enrolled in credential programming. Therefore Options has had approximately a 70% success rate over the last two years (excluding 10 participants who moved from the area).

Thank you,

Greg
