

Nakoosa Trail Plan Summary – Draft

5/01/15

The City of Madison's project is to design and construct a satellite bus facility for Metro Transit, including building and site development, located at Nakoosa Trail and Commercial Avenue in Madison, Wisconsin. The satellite bus facility will include areas for bus storage, bus wash, maintenance, repairs, parts, operations and administration offices. The building will be around 165,000 square feet and will accommodate up to (70) 40-foot standard buses. Site development will include around 5.75 acres of land.
