As a citizen, taxpayer, and hard working state worker and still proud union worker, I don't appreciate or want to encourage bullying! I think Scott Walker has been a bully and so are the Frautschis (play our way or we will take away all the toys. Those of us who appreciate State Street more than Overture// want some things historical and valued to stay the same!! Money can't buy you manners ! why not name the great Street Frautschi Avenue? A gift with tethers is it a gift?
