LETTER OF INTENT FOR LANDMARKS COMMISSION
March 19, 2024

Regarding property in the University Heights Historic District located at:
2003 Van Hise Avenue
Madison, WI

Owners: Steve Cain and Sarah Marty

Architect: Jeannie Kowing, AIA, Jeannie Kowing Design LLC

Dear Commission Members,

This application is an updated application for 2021. The homeowners received approval at that time, however the rapidly increasing costs and inability to secure a contractor in a timely manner put this project on hold until now. Now that the time has come to move forward with their plans, the homeowners above seek your approval on alterations to the property at the above address in the University Heights Historic District. These alterations consist of:

Replacement of current 12' x 20' garage which is in poor condition.

- a. The new design will be a 22' x 20' two-car garage which takes on the same low hip-roof design of the existing garage.
- b. We are proposing it be finished in smooth HardyPlank Lap Siding or cedar siding with an opaque stain to match the house.
- c. Roofing will also match the current house shingles.

Please note, the back porch replacement, previously approved by Landmarks Commission is not a part of this application, as it was in May of 2021. A different designer/contractor will be seeking Landmarks Commission approval on that part of the project.

Furthermore, the owners are aware that a Variance will be required to replace the garage in the location it currently sits.

Thank you for your time in considering this project.

PRODUCT INFORMATION

Garage Service Door

Masonite VistaGrande

A fiberglass door, painted. Has more lite like a wood door, but is a practical, durable fiberglass door. The “stops” around the windows are low profile fitting of a miter, not ogee profile which is typical of other steel or fiberglass doors. These details make it look more sympathetic to a historic house with a wood front door, but it is much more sensible for a door which will have snow lingering on it during the winter.

Vehicle Garage Door

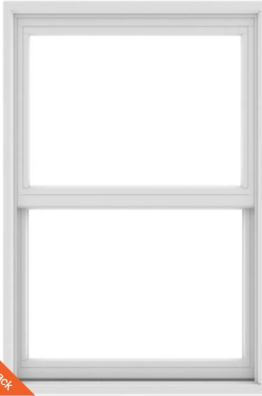

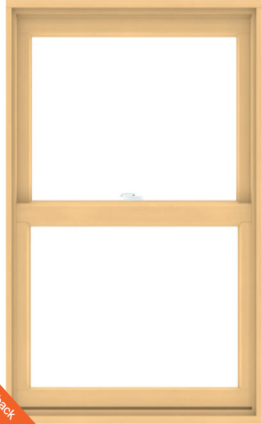

Overhead Door, Inc.
Carriage House Collection

This steel door has a recessed panels and three sections giving it the look of

Landmarks Commission Application

a traditional wood door, not a raised pressed panel. Because the door is divided into three panels the windows are taller and have the look of the front craftsman door. As with the service door, using a non-wood door is a sensible choice for the vehicle overhead door.

Light Fixture

The light fixtures, 3 for the garage and one for the screen door would be like this fixture, with a nod to arts and crafts style without replicating it. These fixtures are 14.5” long and 9” wide, a nice scale for the garage and porch. This may not be the exact fixture used, but the selected fixture will resemble this fixture.

James Hardie's primed for paint collection gives you the power to choose paint for your home's exterior. It's primed. It's ready for field painting. It's a durable, high-performance canvas.
