---

Good Evening Susan,

Thanks so much for reaching out with some supplemental information; this is very helpful. I have CC'ed Jen on this email so it can be shared in the committee materials.

Thanks again and please take care,

Ben Van Pelt

Hi Ben, I thought of something I should have underscored last night when we spoke to the Community Development Conference Committee. Even though the strength of the Catalyst Project is not in its business acumen, we realize this and have therefore arranged to work with both the UW-Entrepreneurial Law Clinic and Forward Community Investment so that we establish solid, sustainable business and financial practices.

Thanks for your time,

Susan Donahoe
