Item #8

I met with applicant Patrick, at the establishment this morning and after discussing the design and capital improvements proposed, I support the application.

We also reviewed the considerations recommended from the neighborhood and I find those to be reasonable given the demographic changes to the neighborhood. I am not concerned about the reduction of two parking stalls as the business model includes the expansion of the food offerings and I see these new plans as a positive to the neighborhood with a focus on offering more options to those in the general vicinity of the establishment rather than relying on patrons who drive to this location.
