**Subject:** Re: Revised Plans submitted for 1848 Waldorf Boulevard

Hello Chris,

I feel that opening the garage towards the west, into the shared driveway, is not very aesthetically pleasing for the residents at Tiburon. Would it be possible for the garage to have an opening towards the south? South faces another parking lot and a water retention area, so there should be no one to object. Please see attached image for a visual representation of what I am talking about. Can you please convey this message to the commissioners in tomorrow's meeting?

Thanks.

Aliasar
